

OVERVIEW

- Risk Management today employs over 1,000 specialists worldwide from its network of offices in Europe, the Americas, Africa and Asia.
- At its debut over 75 years ago, the presence of Risk Management was the largest representation and underwriting network of agencies for l'Union des Assurances de Paris (UAP) which spanned over 14 countries. UAP, now Axa, ranked number one in France and the 10th largest Insurance Group Worldwide. Owing to his contributions, the Founder of the group was knighted, receiving the "Ordre du Merite" of France by the French Government for outstanding contribution to the development of France abroad in the field of insurance.
- Risk's clients include leading multinational corporations, states, governments, public and semi-public authorities and family offices as well as insurance and reinsurance companies.
- Risk is licensed and regulated to operate in over 70 countries worldwide including as Lloyd's Broker.
- Building on its foundations in the insurance, reinsurance, financial services industries, Risk has since complemented its historic strengths by actively contributing to the burgeoning fintech and insurtech arenas.
- Risk seeks to capitalise on opportunities wherever they may arise across the Globe and help its Clients to identify, manage and profit from risk, through risking and de-risking.
